MORE MINERS DECIDE TO RETURN TO WORK

Sub District 3 Practically Unanimous in Decision to Resume.

Miners of sub district 3 of district 17, United Mine Workers of America, voted to return to work at a convention held in Grafton on Thursday. This sub district covers the Grafton, Fleming and Tunnell fields. While the men agreed to return to work at once it is believed that at least a large number of them will hardly resume work before Monday. But that time everything in those fields are expected to be normal again.

The vote in sub district 3 yesterday was practically unanimous just as it was here at the convention of sub district 4. Little opposition was presented and what little there was appeared to be dwindling as the vast majority of the miners desire to resume operations with the cold weather coming on.

The speakers at the convention of sub district 3 were C. F. Keeney, Charleston, president of district 17, and H. E. Peters, Fairmont, president of sub district 4.

County Clerk Martin to Help City Planners

At a meeting held this week the county court designated County Clerk A. G. Martin as the court's representative to set with the City Planning committee of the Rotary Club.

Requests of the committee that various bodies appoint persons to act with the committee have now been complied with by the Woman's Club and the County court.

Notes of Interest Among Railroaders

H. M. Crawford, Brownsville, Pa., supervisor of the Monongahela Railway, is in Fairmont today on business.

Crews on the B. & O. railroad began to resume work yesterday and today they were busy with coal loads. Coal loading is resuming totals tending toward normal conditions. It is estimated that between 800 and 900 loads of coal will be loaded on the B. and O. today.

Shut Off Heat on New York Car Lines

NEW YORK, Dec. 5.—New York sub way and elevated-riding millions, began today to carry their own heat with them as a coal conservation measure. Electric heating of trains was suspended during the rush periods. Officials said that it meant a saving of 1000 tons of coal a day.

Beginning tonight the great white way in the theatrical district will go into partial eclipse. Big electric signs will be operated only between the hours of seven thirty and eight thirty P. M.

Children in India have to learn the multiplication table up to 40 times 40, and this is further complicated by the introduction of fractional parts.

PRECIOUS PAIR ON THEIR WAY

Alexander Berkman and Emma Goldman Begin Trip to Russia.

NEW YORK, Dec. 5.—Alexander Berkman and Emma Goldman, his companion in thirty years of anarcho-socialist activities, were sent from the mainland of the United States today probably never to return.

Ordered deported for urging the overthrow of the government by violence, they were taken by ferry from the tip of Manhattan to the immigration station in Ellis Island where they will be held until a ship is available to send them to Russia whence they came. Their liberty on bail expired when they were surrendered by their counsel at the demand of the Department of Labor.

Berkman's career in America came to an end while Henry Clay Frick whom he once attempted to assassinate was being buried in Pittsburgh.
